

Plumbing

Program Content: This Plumbing Technology program prepares students for entry-level employment or advanced training in the residential and commercial plumbing trades. Students will develop essential competencies including safety, plumbing-related math, blueprint, and job specifications, building codes, pipe-cutting-and-joining skills, rough and trim plumbing, water heaters, and storm drains. They will learn the use of hand and power tools, selection of materials, estimating, blueprints, and interpretation of plumbing codes. The program emphasizes installation, repair and construction practices. Work on small and large construction projects are an integral part of the program.
