Welding Technology - Advanced

Program Content: This course is for the already skilled welder that is looking for some of the highest level welder certifications available by today’s major welding codes. In today’s competitive industry, this course will solidify your marketability as a CERTIFIED 6G WELDER for those who successfully complete the code certification requirements. The focus of this skill level will involve the S.M.A.W. and G.T.A.W. processes on 2” and 6” Carbon Steel pipe along with 2” Stainless Steel Tubing, all in the 6G TEST POSITION. Successful welders will be able to look forward to entering into a world of opportunity in all the major areas in the welding industry from Cross Country Pipeline to Aerospace to Nuclear Power facilities, Ship Building and every-thing in between.

Length of Program: 750 hours – approximately 9 months to complete
Pre-requisite: Successful completion of the Welding Technology program
Class Hours: Full-Time: 4:30 p.m. – 10:00 p.m., Monday – Thursday + 2 Saturdays a month, 7:45 a.m. – 4:15 p.m.
Admission Dates: Fall Term: August, Deadline: June, or when classes fill
Spring Term: January, Deadline: December or when classes fill
Students are accepted on a first-come, first served basis.
Evening Class: An evening class is also available.

Graduation Requirements: Complete all of the programs competencies and projects.
Industry Certifications: American Welding Society Certified Welder
College Credit: N/A
Employment Potential: There is currently a shortage of qualified welders in the United States. Pipe welder helpers can start at $25 an hour and up. A Certified Pipe Welder can make $35 and up. Pipe lines, Oil, Gas, Steam, Food Services, Ship Building, Water treatments plants, Plant shut downs, Replacement of existing pipe line as they age, must be replaced and repaired.

For more info: Please attend our information sessions.
